

BARRE DAILY TIMES

Entered at the Post Office at Barre as Second Class Matter.

Published every week-day afternoon. Subscriptions: One year, \$3; one month, 25 cents; single copy, 1 cent. Frank E. Langley, Publisher.

SATURDAY, MAY 15, 1909.

Congress seems determined to stand by their duty on many products.

Kermit's return in the morning spoiled a chance for a fine abduction story.

And now having swathed ourselves in bunting let us thaw out to our visitors.

What Tolstoi thinks of Roosevelt might be so warm as to burn the paper it was printed on.

Plattsburg struck out in the very first inning, and the other base ball delegates made a home run yesterday.

Every day that Brattleboro postpones establishing a municipal water system means a harder problem later on.

Mr. F. Augustus Helms faces more than 37 varieties of trouble now that he is charged with misappropriating \$2,250,000.

Children often bring belligerent parents together. An offspring did in Bennington yesterday—altogether in a vigorous physical encounter.

To-day in Vermont began the open season for the members of the Annapolis club, and the fish that never was caught was also the biggest one ever caught.

The latest indication of the "reclaiming" of China is an order for 300 golf balls just received by a Boston sporting goods house. Much like fine sport, eh Chink?

A Castleton hotel man has closed his hotel and strung a barbed wire fence around it because he didn't get a liquor license. If the hotel were in Barre next week, we could use it to good advantage.

Harvard and Dartmouth are unfortunate in that they are to lose their present efficient leaders, but the former is fortunate that it has been able to agree on a satisfactory successor who has already accepted. Dr. Tucker's successor must be a strong man in every respect.

It wasn't a bad idea for those St. Johnsbury school children to go to Boston on a sight-seeing excursion. There is so much of historic interest connected with the chief Massachusetts city that, guided aright, they will get much good out of the trip. It is cheaper than a trip to Washington and in many ways fully as valuable.

RECOGNITION OF THE AUTOMOBILE.

Even in Middlebury, where has been developed the greatest antipathy to the automobile, the village trustees have decided that the state regulations are good enough for them, with the single exception that the machines are restricted to six miles an hour on the main street of the village. By this we take it that the automobile has become an established institution in Middlebury in spite of the fact that the Middlebury Register has been arguing right along on the presumption that a motor-car was a creature that would probably vanish from public use and that its very transiency precluded its rights to the public thoroughfares at the present time. The automobile is not a vehicle of a temporary popularity, and the facility which it adds to transportation is bound to give it a bigger vogue as the years go by, with the result that we shall see more and more of them on our roads. Not, of course, to the exclusion of the horse, but sharing the public roads with the horse.

That being granted, there comes then the duty of regulating the speed of the vehicles to best safeguard the general public. If the trustees of a village or a city council believe honestly that the conditions of a certain street are such as to demand a maximum speed limit of six miles an hour, they ought to have the right to say so and enforce it, for one of the difficulties of regulation is the impossibility of fixing a general limitation that will fit all conditions. It is to be inferred that the trustees of Middlebury have this honest conviction regarding the dangers attendant on the use of automobiles on their main street, especially since they have had tests of the varying degrees of speed; and their new regulation is to be respected as being the result of such conviction. While the village officers themselves perhaps have not been hostile to the automobile, a considerable portion of the community which they represent has fought the coming of the machine, so that the present action of the trustees may be taken as a recognition of the permanency of the motor-car and a burial of the hatchet.

PIERCE RETURNING TO TEXAS.

He is to Undergo a Trial on Perjury Charge.

St. Louis, Mo., May 15.—H. Clay Pierce, chairman of the board of directors of the Waters-Pierce Oil company, arrived here yesterday from New York, and left later for Austin, Tex. He expects to reach the latter city Monday and will then give bond under new indictments brought against him as substitutes for the old charges of false swearing for which he is now under. The new indictments, supposedly, correct defects in the original documents.

FELL THIRTY FEET.

Charles White, A Burlington Painter, Injured Yesterday.

Burlington, May 15.—Charles White, a painter, engaged in painting the cornice of a Battery street building, fell from his ladder yesterday morning, sustaining very serious injuries. Mr. White was standing on his ladder about 30 feet above the pavement in front of Joseph Mitchell's hotel, which is owned by Michael Delahanty. Suddenly without warning he fell to the pavement probably overcome by an attack of vertigo. His fall was witnessed by a man who was passing and the latter immediately fainted away. Officer John Brothers, on duty near by, telephoned to the police office for the ambulance. Officer Ryan, at the office, went over to the Stacy stable, where the ambulance is kept, and the vehicle was started towards Battery street by way of King. The ambulance did not put in an appearance quick enough and Mr. White was placed in a carter's wagon, which started up Main street. The ambulance overhauled them in front of the Hayward building and immediately rushed to the Mary Fletcher hospital. Mr. White's injuries consist of a deep gash in the forehead and side of his head and a dislocated hip.

BUY LAND FOR NURSERY.

International Paper Company Will Plant 600,000 Seedlings Yearly

Randolph, May 15.—The McCollom land of 120 acres near the Drury farm and containing McCollom pond, was deeded Tuesday to the Champlain Realty company of 30 Broad street, New York city, which paid \$2,500 for the property. This is a subsidiary company of the International Paper company, connected with G. A. Chedel as agent. Mr. Chedel has charge of all its woodlands in Vermont and New Hampshire, and will use this property for a nursery for raising Norway spruce and pine. Six hundred thousand seedlings will be planted this year and it is intended to make this nursery a permanent industry, and to plant every year, 600,000 seedlings. The Randolph nursery will be watered by the McCollom pond, piped to the seed bed. Mr. Chedel has been instructed by the company to put in a concrete dam, making the pond leak proof, which will give the industry a nice water system of its own.

ORANGE.

Funeral of Elsie Waterman Flanders Held Yesterday Afternoon.

The funeral of Elsie Waterman, wife of Frank Flanders, was held at her late home on the Washington road yesterday afternoon, Rev. F. H. Perkins officiating. The presence of many sorrowing friends and the silent testimony of the flowers they brought told of the high esteem in which the departed was held.

Mrs. Flanders was born in West Topsham, May 31, 1873, but came at an early age to the town which has since been her home. Her death came as the result of heart complications following an attack of influenza, and follows closely the death of her sister, Mrs. Clara Carpenter.

She leaves, as near relatives, to mourn her loss, a husband; two daughters, Berce and Vera; two sons, Archie and Ernest; a mother, Mrs. Colinda Waterman of Barre; and three brothers, Darwin S. and Charles J. of Barre, and Sabin D. of St. Albans. Her life has been an unselfish, home-loving life, welfare of husband and children first in mind with apparently never a thought of self—ambitions only that her children might grow up to be good men and women, and nobly, bravely has she worked to that end.

STRIKE A FAILURE.

French Postal Employees Must, Apparently, Acknowledge Defeat.

Paris, May 15.—The number of striking postal employees in the city yesterday seems to have diminished. The leaders of the strike, however, still talk desperately of unexpected developments, including the declaration of a general strike by the General Federation of Labor.

On the other hand, the authorities, with the endorsement of the Chamber of Deputies behind them, insist that the movement will collapse totally in a few days, without recourse to the elaborate reserve arrangements that have been perfected.

At Lyons, Toulouse, Marseilles and at some other places, the strikers, they say, abandoned the struggle and returned to their posts.

The "wise ones" will get under the straw lid early in the season.

Here are the new importations and all the novelties. Our New York Resident Buyer keeps our store supplied with everything that's new for men's and boys' wear.

Straw hats, all styles, 25c to \$10.00.

FARMERS

Thrifty Farmers Should Keep a Bank Account

Did you ever think of the advantages a check account affords—a perfect receipt—an easy method of making change—a complete cash account? You probably have, but have said, perhaps, "I can't keep a large balance and they won't want to bother with it."

We are always looking for your account, be it large or small. We furnish the checks, returning them when cancelled, with a monthly statement of your account.

The PEOPLES National Bank

C. W. MELCHER, President. F. N. BRADLEY, Vice-President. D. F. TOWN, Cashier. W. C. JOHNSON, Jr., Assistant Cashier.

Let Your Money Work

The sense of security which a Savings Bank account gives, enables a man to do better work himself, while the habits of thrift which the building up of such an account develops, always reflects credit upon him in other ways.

Let your savings work for you. They will earn you FOUR PER CENT. in the

GRANITE

Savings Bank and Trust Company,

Barre, Vermont.

COMMANDER CONE NAMED.

He is Placed at Head of Bureau of Steam Engineering.

Washington, May 15.—The protracted line and staff controversy over the bureau of steam engineering of the navy department was settled yesterday by the detail of Lieutenant Commander Hutch L. Cone, a line officer.

He was engineer-in-chief of the Atlantic fleet during its world-circling cruise.

Very Best PORK ROASTS 15c Pound.

From finest, chunky, corn-fed pigs. It's really better than most you get at other markets. A good Pork Roast for 13c lb.
